MAGNETS

Really attractive

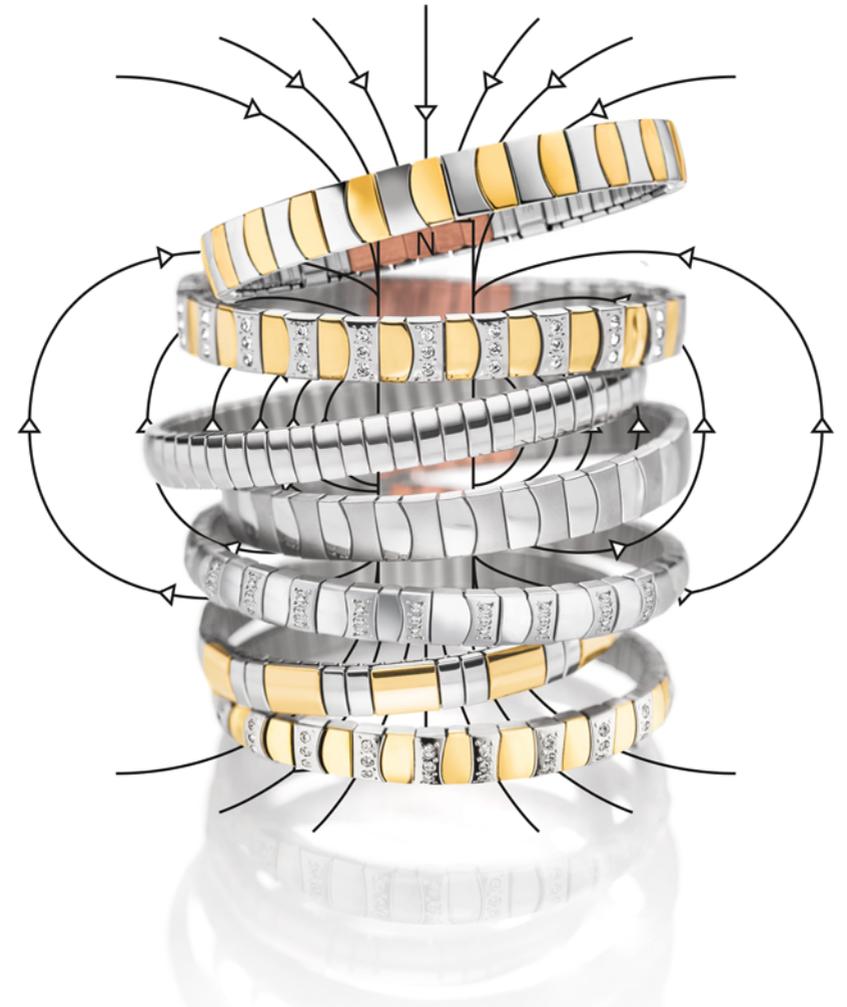

We on earth have forever been exposed to forces and radiation - some of them we perceive consciously, others influence us invisibly - such as magnetism. It cannot be detected by our five senses. However the power of the earth's magnetic field affects all life on our planet.

Magnetism is not only outside and around us but also hides within us. Just by existing and living we generate a magnetic field.

“ Iron is the oxygen transporter in our body and the mineral also plays an important role in cell metabolism. ”

Linus C. Pauling

Why magnets are important for you

So we are constantly surrounded by a huge magnetic field. The force of the magnets has a strong influence on the life of all living beings on earth:

- **The Earth's magnetic field protects us from radiation.**
- **Migratory birds can sense the magnetic field and use it to navigate.**
- **The red blood cells, which supply our body with nutrients contain iron. A magnetic metal.**

RELAX

Take it easy!

Massages affect the skin and the muscles.

They promote the blood circulation of the skin and the musculature. The cell metabolism in the tissue is stimulated and blood pressure and pulse drop. The massage has a relaxing effect, hardenings in muscles and lactic acid can be eased and pain can thereby be relieved.

Not only the body, but also the mind finds massages relaxing: the gentle touches can reduce existing stress.

MASSAGES HELPS WITH

- Mild back pain
- Tension or pain in the back, neck or legs
- Tension in shoulders or hands
- Poor blood circulation
- Psychological stress
- And it just feels good

SOME THINGS ARE HARD TO FORGET!

The magnetic stick in your glass is an attractive eye-catcher. It draws your attention to your glass or carafe all day long.

DRINK REGULARLY!

Drink at least 1.5 - 2 litres of water throughout the day every day to keep your body and mind fresh and healthy!

MORE TASTE!

A splash of lemon or a dash of fresh fruit juice adds something delicious and new to a glass of water. A few slices of cucumber, mint leaves or some fresh ginger are particularly aromatic. Simply stir with the magnetic stick and your natural thirst quencher is ready.

Magic COLOURS

Aurora Borealis

The lights, which shine in fascinating colours, are called northern or southern lights, depending on which of the Earth's poles they occur at. They are best seen at night, but they are caused by the sun.

Sometimes a small portion of the sun's energy overcomes the Earth's protective magnetic field and enters the earth's atmosphere at the south and north poles.

This leads to the colourful play of light in mysterious violet, life-affirming green and orange or creativity-promoting turquoise.

Fragrances for Well-being

Essential oils have a positive effect on body and mind, as the sense of smell is directly connected to the limbic system, the switch point of our emotions.

They can improve our mood and stimulate our senses. Combine your favourite scent with this colourful magnetic jewellery collection.

POWERS from Nature

African turquoise is intended to increase well-being, promote creativity and balance.

Hematite can promote joie de vivre and independence and ward off negative influences.

Net jasper is said to strengthen the immune system and alleviate anxiety and stress.

Tiger eye should help us to find perspective in difficult situations and cheer us up.

Sodalite is said to provide stamina and courage, boost self-confidence and have an inspiring effect.

Lava beads should give new energy strength and vitality.

Stainless Steel & powerful magnets

A particular advantage of stainless steel jewellery is that the surface does not tarnish and it is more durable than silver jewellery.

Stainless steel is absolutely rust-free and particularly skin-friendly. Our jewellery pieces made of the popular material are additionally equipped with powerful neodymium magnets.

Magnets

The jewellery pieces contain one or more neodymium magnets. With 18 mm centre elements for bracelets you have approx. 1,800 Gauss, for water sticks approx. 2,200 Gauss. The magnets of most of the other jewellery pieces have a Gauss intensity of approx. 1,200 Gauss. Magnets may damage credit cards and other cards with magnetic strips. Please keep your cards away from magnet jewellery and accessories.

Materials

Most of our magnetic jewellery is made out of high quality stainless steel. Some jewellery pieces have a copper part built in.

Pacemakers

People with pacemakers should not wear magnetic products.

The right to cancel

As our customer you have a 14 day cancellation right. The full purchase price will be reimbursed. Should you for any reason not be content with your magnetic jewellery, you may return it within 30 days. You will then be refunded the purchase price less a 15% handling charge.

Copper jewellery

With some people wearing a copper bracelet, the wrist turns slightly green, as a result of a natural reaction between the acidity of the skin and the copper. This discolouration washes off easily with soap and water or a little lemon juice. Many MAGNETIX products are not made of copper as a lot of people do not want or need a copper supplement. In addition, some designs cannot be made of copper for technical reasons. To prevent discolouration of the skin, coat the inside of the bracelet with clear nail polish.

Jewellery care

Jewellery should be removed before showering, swimming or doing wet household chores. It can also be damaged by perfumes, creams, deodorants, hairspray or detergents. The best way to clean your jewellery is with a jewellery polishing cloth or lukewarm water.

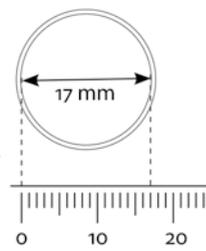

Adaptable dual sizes for bracelets and link necklaces

- 1 Open the clasp.
 - 2 Insert, or take out, the extender. Close the wrap over clasp.
- A Extender link with wrap-over clasp.

Ring sizes

Measure the internal diameter in millimetres of a ring that fits. This measurement is the order size. (Please only order in whole millimetres/sizes)
